Guide to low-income internet options and affordable internet plans

<https://www.allconnect.com/blog/low-income-internet-guide>

Lifeline -- <https://www.fcc.gov/consumers/guides/lifeline-support-affordable-communications>

Lifeline is the FCC's program to help make communications services more affordable for low-income consumers. Lifeline provides subscribers a discount on monthly telephone service, broadband Internet access service, or voice-broadband bundled service purchased from participating providers.

Government assistance programs -- Internet

If you or someone in your household participates in a federal assistance program, you may qualify for [Lifeline](#), the Federal Communication Commission's program that helps lower either monthly phone or internet costs.

Lifeline provides a discount of \$9.25 per month for either your phone or internet bill (but not both) and is limited to one discount per household.

Income-based programs -- Internet

If you do not receive assistance from government assistance programs, you may still qualify for the \$9.25 per month Lifeline discount based on your income.

Lifeline provides the monthly phone or internet discount to eligible low-income applicants who have an income at or below 135% of the [federal poverty guidelines](#).

Low-income internet service providers:

- AT&T – Up to 10 Mbps for \$5/mo. or \$10/mo.*
